12. **Significance or Reason Why This Model Should Be Retained:**

Despite the fact that no states have adopted the model and only a handful of states have taken related legislative or regulatory action, the model should be retained. The former Affordable Care Act Model Review (B) Working Group of the Regulatory Framework (B) Task Force reviewed this model as part of its charge to review all NAIC models that may have been impacted by the federal Affordable Care Act (ACA). The Working Group recommended to the Regulatory Framework (B) Task Force that the model be retained and revised to be used for filing of qualified health plan (QHP) applications. The Regulatory Framework (B) Task Force adopted the Working Group’s recommendation June 7, 2013.
