Subject: Comments for data guidelines

Hi Joe,

If I remember correctly, the deadline for the comment period for suggestions on the medical malpractice closed claims data guidelines project is today. I'm writing to remind you of a memo Bernie Black, I and some other academics submitted last year regarding issues we ran into while working with the data collected by the Texas Department of Insurance. You can find it at:

http://www.naic.org/documents/committees_c_sitf_070320_Med_Mal_Comments_Academia_Letter.p

Although the memo was posted over a year ago, you might find the information relevant now as you hash through the fine details related to data collection.

Thanks, Kathy
