Subject: RE: NAIC NOTICE - Level 1 and Level 2 Referral to CADs -  
Comment by July 3

Randy -

Since we did not discuss this during the last call, Florida would like to provide comments.

We agree with WI that no automated message is necessary, especially after a Level 1.

The reviewing state's own CAD and/or MAC should vet the analysis prior to contact with the domiciliary state. It seems more appropriate to us that the reviewing state's MAC or CAD would be the one to make contact with the domiciliary state's MAC or CAD. As a practical matter, Florida would most likely not authorize this as a selection for our analysts.

I can see that an internal message to the reviewing state's CAD after a Level 2 might be useful for some states.
