Subject: RE: NAIC Notice: Special Accreditation Standards (D) Working Group Accreditation Proposal Concept (2009-07-20)

Craig,

We reviewed the general proposal and feel that it is a good one. The main questions that came up with our Market Conduct Examination Supervisor were, 1.) How much detail will be required in the development of each particular state plan, and 2.) Will the states have a clear way to measure their own progress?

I'm sure that both of these issues will become more apparent as the details are worked out.

Thank you for passing along this proposal.

Bruce Ramge.
