Preface to Credit for Reinsurance Models

The amendments to the NAIC Credit for Reinsurance Model Law (#785) & Regulation (#786) are part of a larger effort to modernize reinsurance regulation in the United States. The NAIC initially adopted the Reinsurance Regulatory Modernization Framework Proposal during its 2008 Winter National Meeting. The NAIC recommended that this framework be implemented through federal legislation in order to best preserve and improve state-based regulation of reinsurance, ensure timely and uniform implementation throughout all NAIC member jurisdictions, and as a more comprehensive alternative to related federal legislation. In addition to this proposed federal legislation, the framework also provided that changes to state insurance laws should be considered. For example, state laws to establish requirements under which states would regulate qualified reinsurers, and also to consider reinsurance risk diversification and notice requirements for ceding insurers.

On July 21, 2010, Congress passed and the President signed related federal legislation, the Nonadmitted and Reinsurance Reform Act, which became effective July 21, 2011. While this act does not implement the NAIC framework, it does preempt the extraterritorial application of state credit for reinsurance law and permits states of domicile to proceed forward with reinsurance collateral reforms on an individual basis if they are accredited. This federal legislation also does not prohibit the states from acting together, through the NAIC, to achieve the reinsurance modernization framework goals. In addition to the current work on the credit for reinsurance models, the NAIC will continue its efforts to implement other aspects of the framework. These efforts will continue both through work conducted by the Reinsurance Task Force and through referrals to the appropriate groups within the NAIC. In addition, the NAIC will consider a proposal to form a new group to provide high-quality advisory support and assistance to states in the review of reinsurance collateral reduction applications and assistance to the states. Such a process with respect to the review of applications for reinsurance collateral reduction and qualified jurisdictions should strengthen state regulation and prevent regulatory arbitrage. Such an effort would be supported by NAIC staff with substantial expertise to carry out the functions of such a group.

Finally, the NAIC will continue to work on requirements for NAIC review and approval of qualified jurisdictions, and will undertake a re-examination of the collateral amounts within two years from the effective date of the revisions to the models.
