PBR Blanks Reporting (EX) Subgroup Charges

The PBR Blanks Reporting (EX) Subgroup will recommend changes to the PBR Review (EX) Working Group regarding Blanks and related instructions for PBR. The subgroup will include consideration of the draft blanks exposures and instructions developed by LATF and non-confidential information provided in VM-31 of the Valuation Manual. Subgroup efforts support the fourth charge to the working group which requires the working group to recommend changes to other NAIC groups to modify the Blanks and financial statement instructions in a manner that ensures public transparency.
