

WRITTEN COMMENTS SUBMITTED BY TREVA WRIGHT-DONELL
KENTUCKY INSURANCE DEPARTMENT

Simplify the licensing process by eliminating the licensing of business entities by line of authority;

- If BE is not licensed a culture of impropriety could remain in the organization, after revocation of a specific Individual licensee.

Simplify the licensing process by eliminating the requirement that the DRP hold the same lines of authority as the business entity;

- Kentucky would support a BE holding a Producer License without it being tied to the DRP LOA.

Simplify the licensing process by eliminating the requirement for a business entity to track and list each producer affiliated with it;

- Kentucky would concur provided that each licensee is required to hold Insurer appointment(s).

Simplify the licensing process by eliminating the licensing or registration of each branch location of a business entity;

- Neutral on this issue with comment - Some states license only a few individuals in a RV company, therefore some locations do not have a licensed individual on site.

Simplify the licensing process by eliminating the filing of organizational documents;

- Concur most states do not require.

Simplify the licensing process by eliminating the prior approval of assumed names;

- Disagree, this could present an unethical organization to destroy a well established Agency by using the same name.

Simplify the licensing process by creating a uniform standard for business entity renewals;

- Support the current renewal standard for business entities which is to renew biennially on date certain, encourage states to adopt.
