#### What others have said:

- *This class has been a great experience for me. My general counsel indicated that if I wanted to be involved with insurance for a few years, this was a necessary course to take. She was right. The lectures, the exercises, and the materials were all designed to be helpful and challenging.*
- *Personally, I enjoyed the handbook the most because now I have an amazing reference source to turn to in case I am in need of a refresher course. As an attorney who has been involved in other CLEs and courses, I must say that this ranks among the best that I have been involved with.*
- *I definitely found the course educational. It gave me a good overview of a lot of material in a short amount of time. I am more accustomed to going to an actual class and getting a lecture that way, but I was impressed with the online course. I think this is a good way to cover this material and allows a self-paced approach, which I liked.*

### Certificate of Completion and Continuing Education

To receive a Certificate of Completion and the documentation that you can use when requesting continuing education credit from other organizations such as SOFE or IRES, you must successfully complete this course. If you are a Designation Candidate, you must successfully complete the course to be eligible to take the exam. The requirements for successful completion are outlined in the course syllabus sent prior to the course and posted within the class.

Within two weeks after the course has ended, the administrator will review all coursework based on the guidelines listed on the syllabus. Determination of successful completion will be sent via e-mail to those who earn this notification. Twenty-six (26) credits will be listed on continuing education materials for this two-week course. Partial credit is not awarded. This is a PIR-level Designation Program course.
