IDENTIFICATION OF ITEM(S) TO CHANGE

Add an electronic only column to capture the Legal Entity Indicator (LEI) number for mortgagors, counterparties, depositories and the issuers of equity and fixed income securities in the detail investment schedules (A, B, BA, D, DA, DB, DL and E) who have been assigned a LEI number. Any entity engaged in financial transactions will be able to have an LEI assigned to it by a Local Operating Unit (LOU) designated by the regulatory agencies of their jurisdiction. Some jurisdictions, including the United States, will have multiple LOU's.

REASON, JUSTIFICATION FOR AND/OR BENEFIT OF CHANGE**

The LEI will improve consistency of reporting and give state insurance regulators a significant tool to aggregate exposures across the many different investment activities that insurers are engaged in. This will be an additional tool for focusing on risk concentration factors. The LEI will also greatly enhance the ability to analyze and understand interconnectedness and systemic issues within insurance entities and across the insurance industry. The LEI system will also tie together reference data such as ownership hierarchies and country of domicile giving users an additional risk management tool. The reference data library is expected to evolve over time with different data points added as needed to address global capital markets issues.
