CIPR Event: Insurance and Technology
As of 3/24/16

April 5, 2016
New Orleans, LA

2:00   Registration Check-in

3:00   Welcome & Introduction
       ~ John M. Huff, Director
           Missouri Department of Insurance

3:10   Session 1: The Impact of Technological Advances on the Insurance Industry
This presentation will discuss peer-to-peer insurance and the regulatory challenges for this
market disruptor.
       ~ Ty Sagalow, Chief Insurance Officer
           Lemonade

3:40   Session 2: The Use of BitCoin and BlockChain Technologies in the Insurance Industry
This presentation will explore why insurers have been hesitant to underwrite coverage for
electronic currency companies and what can be done to make this an insurable risk. Additionally,
the session will discuss the current regulatory landscape for these technologies
       ~ Dan Robles, Director
           The Ingenesist Project

4:10   Session 3: Big Data Panel
This panel discussion will explore the impact of Big Data on auto insurance, including price
optimization, availability and affordability data; and leveraging NAIC data collection and validation
expertise to assist regulators in converting Big Data to useful information.

           Moderator:
       ~ Laura Cali, Commissioner
           Oregon Insurance Division

       Panelists:
       ~ Jim MacGinnitie, Senior P/C Fellow
           American Academy of Actuaries
