#### DESCRIPTION OF CHANGE(S)

American Academy of Actuaries (Academy) Report for 2017 Property and Casualty Risk-Based Capital Underwriting Line 4 Factors.

The factors are based on the scenario #1 (10% capped) Underwriting Factors proposed by the Academy were adopted for 2017 RBC reporting (See the proposal 2016-14-P). During the 10/11 PCRBC WG conference call, the WG decided to develop a proposal to include four different options:

- 1) factors capped at 35% for all lines of business;
- 2) uncapped factors for all lines of business;
- 3) factors capped at 35% on Commercial lines and Medical Professional Liability lines and uncapped on all other lines of business; and
- 4) any other alternatives suggested by interested parties.

#### **REASON OR JUSTIFICATION FOR CHANGE \*\***

At the request of the PCRBC WG, the Academy examined the underwriting risk charges used the NAIC RBC formula. The Academy recommended that the Working Group consider adopting factors resulting from the revised methodology outlined in the report.

**Additional Staff Comments:**

11/16/18 – During the Joint P/C RBC WG and Catastrophe Risk Subgroup meeting, the members agreed to 1) use the 35 percent capped factors for Commercial Insurance, Medical Professional Liability, and All Other Lines; and use uncapped factors for Personal Lines and Reinsurance Lines and 2) expose this proposal for a 60-day comment period ending January 18, 2019.
