NAIC Financial Data Repository Participation

The NAIC Executive Headquarters Financial Data Repository (Database) is updated every year by the National Association of Insurance Commissioners (NAIC) on behalf of and at the direction of our members, the state insurance commissioners.

The Database will include annual statement data for the following *statement types*:

- Property & Casualty (including Property Combined filings)
- Life, Accident & Health (including Life Separate Accounts filings)
- Fraternal (including Fraternal Separate Accounts filings)
- Title
- Health

The Database will include Risk-Based Capital Reports for the following *statement types*:

- Property & Casualty
- Life, Accident & Health
- Health
- Fraternal

The Database will include quarterly statement data for the following *statement types*:

- Property & Casualty
- Life, Accident & Health
- Title
- Health

Participation in the Database provides essential data for the Insurance Regulatory Information System (IRIS) Financial Ratio Reports, risk-based capital analysis, and other solvency-related reviews of individual companies, including reporting compliance and financial analysis. This serves to assist in preventing insolvencies for which liability is imposed on insurers under state guaranty fund laws. It also serves several other regulatory information needs, such as mandated: experience analysis for particular lines or sub-lines for individual companies and groups; general market structure and performance analysis; and statistics by company, groups or the industry as a whole.

It is extremely important that all filings are accurate, complete, and timely. The NAIC will be working to ensure that companies have complied with electronic filing requirements and financial reporting requirements contained in the *Blanks, Annual Statement Instructions* and *Purposes and Procedures Manual of the NAIC Investment Analysis Office*, and any data validation failures are resolved.

NAIC Internet Filing

Important:

The NAIC will accept only filings submitted via the Internet Filing website.

Note: If disaster(s) or other contingencies prevent timely online filing, authorization to submit a company's filing other than via the Internet Filing website should come from the company's domiciliary state. Approval from the company's domiciliary state must be submitted to the NAIC along with the filing submitted via alternative media.

Once a company has signed up for Internet Filing, the NAIC will provide a User ID and password to the insurer to use to submit as many filings as necessary, as often as necessary. It is not necessary to renew or resign up for Internet filing each year as long as the company code has not changed.

How to Sign Up for Internet Filing:

1. You must request an NAIC user name and password so that you can submit financial filings.
2. Go to <https://ifs.naic.org/internetfiling/servlet/IFHome>.
3. Click on the request NAIC user name and password link on the right.
4. For assistance with this call the NAIC Help Desk (816) 783-8500.

Checking Your Submission Status:

1. Log onto the Internet Filing website.
2. Click on the Submit Filing link on the right.
3. Scroll or page down to the section entitled Find and select the filing for which you want to check the submission status.
4. The Internet Filing – Recent Submissions page will display the following information.
 - The zip file name submitted
 - The size of the filing
 - The time the filing was received
 - The media type submitted (Internet)
 - All the individual files that were within the submitted zip file
 - The processing status information, which will include
 - The time processed
 - Passed Minimum Standards (Yes, No, Not Processed)

If the **Passed Minimum Standards** answer is **Yes**, your data file has loaded. You will see the following message:

Your Statement data file (S.TXT) has passed minimum standards and loaded to the NAIC Financial Data Repository.

If the **Passed Minimum Standards** answer is **No**, your data file has not loaded. You will see the following message:

Your statement data file (S.TXT) has failed minimum standards. Your NAIC Data Support Analyst will determine the problem with your filing and contact you, if need be. Please allow 24 hours, then check for a refile in the submissions area on the Submit Filing page that has passed minimum standards and is loaded to the NAIC Financial Data Repository.

If the **Passed Minimum Standards** answer is **Not Processed**, this could be caused by a variety of reasons (received a duplicate copy of the file, there is a problem with the items within the zip file, etc). You can contact the Data Support Analyst if 24 hours have passed and the status has not changed.

Whom to Contact About Internet Filing:

If you are receiving an error message when trying to submit an electronic filing or having trouble with your NAIC user name and password, contact the NAIC Help Desk at **(816) 783-8500** or by Email at help@naic.org

For general questions concerning Internet Filing, contact Financial Regulatory Services Data Support Analysts at FDRadmin@naic.org or (816)783-8600

NAIC Insurance Regulatory Information System (IRIS)

Currently, the NAIC only generates IRIS ratio results for Property & Casualty, Life and Fraternal statement filers.

IRIS Ratio Results are generated automatically upon data submission if all IRIS data elements are present in the submission. If IRIS data elements are submitted with data validation failures or material accounting errors, these failures/errors will be reflected in the IRIS ratio results.

As soon as the NAIC calculates an insurer's IRIS ratios, the IRIS Financial Ratio Results Report will be made available to the states and will be sent electronically to the Company's Current Financial Statement Contact person via e-mail. For those companies that do not have a valid annual statement e-mail address, printed reports will be mailed.

If a company submits amended data that affects the current processing year IRIS ratios, the NAIC will recalculate IRIS. As with the original IRIS ratios report, the IRIS Financial Ratio Results Report will be made available to the states and will be sent electronically to the Company's Current Financial Statement Contact person via e-mail. For those companies that do not have a valid annual statement e-mail address, printed reports will be mailed. The insurer Internet reports, or reports viewed through Internet Filing, will have the most current IRIS Ratio Results Report available for an insurer.

A company that has an NAIC User Name and Password can retrieve the latest IRIS Ratio Report (whether it is an original or revised report) from the Internet Filing website by following the instructions below.

If You Already Have an NAIC User Name and Password:

1. Go to <https://ifs.naic.org/internetfiling/servlet/IFHome>.
2. Sign into Internet Filing using the NAIC user name and password assigned to your company. **The site is case-sensitive.**
3. Click the "**IRIS Results**" button on the right side of the page.
4. The most recent IRIS results will be displayed. You can also, in most instances, retrieve current IRIS results plus the past four prior years provided that your company had results for these data years.
5. Follow the instructions on the screen to print the IRIS with or without the Internet Filing banner.

A company receives **only** its own IRIS Ratio Results. You can *purchase* the Insurance Regulatory Information System (IRIS) Ratio Results through the NAIC by calling (816) 783-8300 or e-mail prodserv@naic.org.

General Guidelines

Annual and quarterly filings must follow all established guidelines specified in the **Annual Statement Instructions***.

The following electronic media filing standards must also be followed:

- all material validation discrepancies should be corrected or explained;
- an electronic validation results file and an electronic explanation file (explaining any material validation failures included in the results file) must be included with the data filing;
- validations included in your vendor's software package and the results that populate the electronic validation results file must not be modified.

***The Annual Statement Instructions and related annual statement publications may be obtained from the NAIC by calling (816) 783-8300 or e-mailing prodserv@naic.org.**

NAIC Filing Fee Structure

The NAIC is using a streamlined formulaic approach for the calculation of the 2018 annual financial filing (data year) database filing fee. In this approach fees are calculated using the measurement of an insurance company's premiums or assumed reinsurance (defined below) multiplied by a base factor, subject to a minimum fee and individual and group caps, as illustrated below. The NAIC no longer uses a tiered fee structure.

Formulaic Approach for NAIC Database Filing Fees for 2017 Data Year Filings-Submitted in 2018
Premium Base Level x 0.000026
Minimum Fee = \$235
Individual Cap = \$86,088
Group Cap = \$258,264

Premium Base by Statement Type
