Section 1. Purpose of Act

The purpose of this Act is to promote the public welfare by regulating insurance rates to the end that they shall not be excessive, inadequate or unfairly discriminatory, and to authorize and regulate limited cooperative action among insurers in ratemaking-related activities and in other matters within the scope of this Act. Nothing in this Act is intended (1) to prohibit or discourage reasonable competition, or (2) to prohibit or encourage, except to the extent necessary to accomplish the aforementioned purpose, uniformity in rating systems, rating plans or practices. This Act shall be liberally interpreted to carry into effect the provisions of this section.

Section 2. Definitions

A. “Advisory organization” means any entity, including its affiliates or subsidiaries, which either has two or more member insurers or is controlled either directly or indirectly by two or more insurers, and which assists insurers in ratemaking-related activities such as enumerated in Sections 10 and 11. Two or more insurers having a common ownership or operating in this State under common management or control constitute a single insurer for purposes of this definition.

B. “Commercial risk” means any kind of risk which is not a personal risk.

C. “Commissioner” means the Commissioner of Insurance of this state.

D. “Developed losses” means losses (including loss adjustment expenses) adjusted, using standard actuarial techniques, to eliminate the effect of differences between current payment or reserve estimates and those which are anticipated to provide actual ultimate loss (including loss adjustment expense) payments.
E. “Expenses” means that portion of a rate attributable to acquisition, field supervision, collection expenses, general expenses, taxes, licenses and fees.

F. “Joint underwriting” means a voluntary arrangement established to provide insurance coverage for a commercial risk pursuant to which two or more insurers jointly contract with the insured at a price and under policy terms agreed upon between the insurers.

G. “Loss trending” means any procedure for projecting developed losses to the average date of loss for the period during which the policies are to be effective.

H. “Personal risk” means homeowners, tenants, private passenger nonfleet automobiles, mobile homes and other property and casualty insurance for personal, family or household needs.

I. “Pool” means a voluntary arrangement, established on an on-going basis, pursuant to which two or more insurers participate in the sharing of risks on a predetermined basis. The pool may operate through an association, syndicate or other pooling agreement.

J. “Prospective loss costs” means that portion of a rate that does not include provisions for expenses (other than loss adjustment expenses) or profit, and are based on historical aggregate losses and loss adjustment expenses adjusted through development to their ultimate value and projected through trending to a future date.

K. “Rate” means that cost of insurance per exposure unit whether expressed as a single number or as a prospective loss cost with an adjustment to account for the treatment of expenses, profit, and individual insurer variation in loss experience, prior to any application of individual risk variations based on loss or expense considerations, and does not include minimum premium.

L. “Residual market mechanism” means an arrangement, either voluntary or mandated by law, involving participation by insurers in the equitable apportionment among them of insurance which may be afforded applicants who are unable to obtain insurance through ordinary methods.

M. “Special assessments” means guaranty fund assessments, Second Injury Fund assessments, Vocational Rehabilitation Fund Assessments, and other similar assessments. Special assessments shall not be considered as either expenses or losses.

Drafting Note: A state may wish to add “assessments for residual market mechanisms” or other assessments as one of the listed special assessments.

N. “Statistical agent” means an entity that has been licensed by the commissioner to collect statistics from insurers and provide reports developed from these statistics to the commissioner for the purpose of fulfilling the statistical reporting obligations of those insurers under this Act.

O. “Supplementary rating information” includes any manual or plan of rates, classification, rating schedule, minimum premium, policy fee, rating rule, underwriting rule and any other similar information needed to determine the applicable rate in effect or to be in effect.

Drafting Note: A “plan of rates” filed by an insurer would contain final rates including provisions for expenses and profit. A “plan of rates” filed by an advisory organization would contain only prospective loss costs which would exclude provisions for expenses (other than loss adjustment expenses) and profit.

P. “Supporting information” means:

1) The experience and judgment of the filer and the experience or data of other insurers or advisory organizations relied upon by the filer;

2) The interpretation of any other data relied upon by the filer;

3) Descriptions of methods used in making the rates; and

4) Any other information required by the commissioner to be filed.
Section 3. Scope of Act

This Act applies to all forms of casualty insurance, including fidelity, surety and guaranty bond, to all forms of fire, marine and inland marine insurance, and to any combination of any of the foregoing, on risks or operations located in this State. Inland marine insurance shall be deemed to include insurance now or hereafter defined by statute, or by interpretation thereof, or if not so defined or interpreted, by ruling of the commissioner, or as established by general custom of the business, as inland marine insurance.

Drafting Note: The kinds of insurance are named herein in their generally accepted trade sense unless otherwise defined by statute or regulation. The wording of the section should be fitted to any laws of the state which classify insurance.

This Act shall not apply to:

A. Reinsurance, other than statutorily authorized joint reinsurance mechanisms to the extent stated in Section 14;

B. Accident and health insurance;

C. Insurance of vessels or craft, their cargoes, marine builders’ risks, marine protection and indemnity, or other risks commonly insured under marine, excluding inland marine insurance as determined by the commissioner;

D. Title insurance;

E. Insurance;

Drafting Note: Here should be listed (a) other kinds of insurance, if any, and (b) particular types of insurers, if any, to which this Act is not to apply in the state or jurisdiction adopting the Act. The specific exemption of aircraft hull and liability insurance contained in the 1946 NAIC Model Bills is omitted from Section 3 of this Act. A number of states have, since 1946, provided for regulation of aircraft hull and liability insurance rates.

Section 4. Rate Standards

Rates shall be made in accordance with the following provisions:

A. Rates shall not be excessive, inadequate or unfairly discriminatory.

Drafting Note: The specific standards for excessiveness, inadequacy or unfair discrimination may be defined or explained through regulation.

B. Due consideration shall be given to past and prospective loss experience within and outside this State; to the conflagration and catastrophe hazards; to a reasonable margin for profit and contingencies; to dividends, savings, or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers; to past and prospective expenses both countrywide and those specially applicable to this State; and to provisions for special assessments and to all other relevant factors within and outside this State. In determining the reasonableness of the profit, consideration shall be given to investment income.

C. Risks may be grouped by classifications for the establishment of rates and minimum premiums. Classification rates may be modified to produce rates for individual risks in accordance with rating plans which establish standards for measuring variations in hazards or expense provisions, or both. Such standards may measure any differences among risks that can be demonstrated to have a probable effect upon losses or expenses. No risk classification, however, may be based upon race, creed, national origin or the religion of the insured.

D. The expense provisions included in the rates to be used by an insurer shall reflect the operating methods of the insurer and its anticipated expenses.

Drafting Note: Specific reference to “rating schedules” is omitted as unnecessary, because the “rating schedules” referred to in Section 3(a) of the Fire and Marine Model Bill as approved by the NAIC in 1946 are regarded as an example of permissible modification of classification rates.
Section 5. Rate Filings

A. (1) Every insurer shall file with the commissioner, except as to inland marine risks which are not written according to manual rates or rating plans, every manual, minimum premium, class rate, rating schedule or rating plan and every other rating rule, and every modification of any of the foregoing which it proposes to use. An insurer may file its rates by either filing its final rates or by filing a multiplier to be applied to prospective loss costs that have been filed by an advisory organization on behalf of the insurer as permitted by Section 11. Every such filing shall state the proposed effective date thereof, and shall indicate the character and extent of the coverage contemplated.

(2) Every insurer shall file or incorporate by reference to material which has been approved by the commissioner, at the same time as the filing of the rate, all supplementary rating and supporting information to be used in support of or in conjunction with a rate. The information furnished in support of a filing may include or consist of a reference to:

(a) The experience or judgment of the insurer or information filed by the advisory organization on behalf of the insurer as permitted by Section 11,
(b) Its interpretation of any statistical data it relies upon,
(c) The experience of other insurers or advisory organizations, or
(d) Any other relevant factors.

A filing and any supporting information shall be open to public inspection upon receipt of the filing.

(3) When a filing is not accompanied by the information upon which the insurer supports such filing, the commissioner may require such insurer to furnish the information upon which it supports such filing and in that event the waiting period shall commence as of the date such information is furnished. Until the requested information is provided, the filing shall not be deemed complete or filed nor available for use by the insurer. If the requested information is not provided within a reasonable time period, the filing may be returned to the insurer as not filed and not available for use.

(4) After reviewing an insurer’s filing, the commissioner may require that the insurer’s rates be based upon the insurer’s own loss, special assessment and expense information. If the insurer’s loss or allocated loss adjustment expense information is not actuarially credible, as determined by the commissioner, the insurer may use or supplement its experience with information filed with the commissioner by an advisory organization or statistical agent.

(5) Insurers utilizing the services of an advisory organization must provide with their rate filing, at the request of the commissioner, a description of the rationale for such use, including its own information and method of utilization of the advisory organization’s information.

B. The commissioner shall review filings as soon as reasonably possible after they have been made in order to determine whether they meet the requirements of this Act.

C. Subject to the exception specified in Subsection D of this section, each filing shall be on file for a waiting period of [insert number] days before it becomes effective, which period may be extended by the commissioner for an additional period not to exceed [insert number] days if written notice is given within such waiting period to the insurer or advisory organization which made the filing that additional time is needed for the consideration of the filing. Upon written application by the insurer, the commissioner may authorize a filing which has been reviewed to become effective before the expiration of the waiting period or any extension thereof. A filing shall be deemed to meet the requirements of this Act unless disapproved by the commissioner within the waiting period or any extension thereof.
Drafting Note: The waiting period specified in current state statutes ranges from 15 to 90 days.

D. Under such rules and regulations as may be adopted, the commissioner may, by written order, suspend or modify the requirement of filing as to any kind of insurance, subdivision or combination thereof, or as to classes of risks, for which the rates cannot practicably be filed before they are used. The commissioner may make such examination as deemed advisable to ascertain whether any rates affected by such order meet the standards set forth in Section 4.

E. Upon the written application of the insurer and insured, stating its reasons therefore, filed with and approved by the commissioner, a rate in excess of that provided by a filing otherwise applicable may be used on any specific risk.

F. No insurer shall make or issue a contract or policy except in accordance with the filings which have been approved and are in effect for said insurer as provided in this Act or in accordance with Subsections D or E of this section. This subsection shall not apply to contracts or policies for inland marine risks as to which filings are not required.

Drafting Note: To accommodate the transition from a prior rating law to this model, consideration should be given to inclusion of “transitional language” such as:

“Nothing in this Act shall be construed to require an advisory organization or its members or its subscribers to immediately refile final rates or premium charges previously approved by the commissioner. Members or subscribers of an advisory organization are authorized to continue to use insurance rates or premium charges approved before the effective date of this Act or decreases from those rates or premium charges filed by the advisory organization and subsequently approved after the effective date of this section.”

Section 6. Disapproval of Filings

A. If within the waiting period or any extension provided in Section 5C, the commissioner finds that a filing does not meet the requirements of this Act, written notice of disapproval shall be sent to the insurer or advisory organization which made the filing, specifying therein in what respects the filing fails to meet the requirements of this Act and stating that such filing shall not become effective. If a filing is disapproved by the commissioner, the insurer or advisory organization may request a hearing on the disapproval within thirty (30) days and the commissioner shall schedule that hearing within thirty (30) days of the receipt of the request. The insurer or advisory organization bears the burden of proving compliance with the standards established by this Act.

B. If at any time after a rate has been approved, the commissioner finds that the rate no longer meets the requirements of this Act, the commissioner may order the discontinuance of use of the rate. The order of discontinuance may be issued after a hearing with at least ten (10) days’ prior notice for all insurers affected by the order. The order must be in writing and state the grounds for the order. It shall also state when, within a reasonable time thereafter, the filing will be deemed no longer effective. The order shall not affect any contract or policy made or issued prior to the expiration of the period set forth in the order. The commissioner’s order may include a provision for a premium adjustment for contracts or policies made or issued after the effective date of the order.

C. Any insured aggrieved with respect to any filing which is in effect may make written application to the commissioner for a hearing thereon. The application shall specify the grounds to be relied upon by the applicant. If the commissioner shall find that the application is made in good faith, that the applicant would be so aggrieved if his grounds are established, and that such grounds otherwise justify holding such a hearing, a hearing shall be held within thirty (30) days after receipt of such application upon not less than ten (10) days’ written notice to the applicant and to every insurer and advisory organization which made such filing.

If, after such hearing, the commissioner finds that the filing does not meet the requirements of this Act, an order shall issue specifying in what respects such filing fails to meet the requirements of this Act, and stating when, within a reasonable period thereafter, such filing shall no longer be deemed to be in effect. Copies of the order shall be sent to the applicant and to every such insurer and advisory organization. The order shall not affect any contract or policy made or issued prior to the expiration of the period set forth in the order.
Section 7. Information to be Furnished Insureds: Hearings and Appeals of Insureds

A. Every advisory organization and every insurer shall, within a reasonable time after receiving written request, furnish to any insured affected by a rate made by the insurer, or to the authorized representative of the insured, all pertinent information as to such rate. Every advisory organization and every insurer shall provide within this state reasonable means whereby the insured aggrieved by the application of its rating system may be heard, in person or by his or her authorized representative, on written request to review the manner in which such rating system has been applied in connection with the insurance afforded the insured. If the advisory organization or insurer fails to grant or reject such request within thirty (30) days after it is made, the applicant may proceed in the same manner as if the application had been rejected. The insured affected by the action of the advisory organization or insurer on such request may, within thirty (30) days after written notice of such action, appeal to the commissioner, who, after a hearing held upon not less than ten (10) days’ written notice to the appellant and to the advisory organization or insurer, may affirm or reverse such action.

Drafting Note: Language could be inserted here which would allow an insurer to charge a reasonable fee to cover the expense of providing any information requested under this section, but charges should not be permitted when the information relates to the specific application of an experience rating modification or a schedule rating modification.

B. If, after a hearing held under this section, it is determined that the rates charged by an insurer are in excess of the otherwise appropriate rate, such overcharge shall be refunded to the insured.

Section 8. Licensing Advisory Organizations and Statistical Agents

A. No advisory organization or statistical agent shall provide any service relating to statistical collection or the rates of any insurance subject to this Act, and no insurer shall utilize the services of such organization for such purposes unless the organization has obtained a license under Subsection C.

B. No advisory organization or statistical agent shall refuse to supply any services for which it is licensed in this state to any insurer authorized to do business in this State and offering to pay the fair and usual compensation for the services.

C. Licensing.

(1) An advisory organization or statistical agent applying for a license shall include with its application:

(a) A copy of its constitution, charter, articles of organization, agreement, association or incorporation, and a copy of its bylaws, plan of operation and any other rules or regulations governing the conduct of its business;

(b) A list of its members and subscribers;

(c) The name and address of one or more residents of this State upon whom notices, process affecting it, or orders of the commissioner may be served;

(d) A statement showing its technical qualifications for acting in the capacity for which it seeks a license;

(e) A biography of the ownership and management of the organization; and

(f) Any other relevant information and documents that the commissioner may require.

(2) Every organization which has applied for a license shall notify the commissioner of every material change in the facts or in the documents on which its application was based. Any amendment to a document filed under this section shall be filed at least thirty (30) days before it becomes effective.
(3) If the commissioner finds that the applicant and the natural persons through whom it acts are competent, trustworthy and technically qualified to provide the services proposed, and that all requirements of the law are met; he or she shall issue a license specifying the authorized activity of the applicant. The commissioner shall not issue a license if the proposed activity would tend to create a monopoly or to substantially lessen the competition in any market.

(4) Licenses issued pursuant to this section shall remain in effect for one year unless the license is suspended or revoked. The commissioner may at any time, after hearing, revoke or suspend the license of an advisory organization or statistical agent which does not comply with the requirements and standards of this Act.

(5) Advisory organizations wishing to operate as statistical agents may be so authorized under their license as an advisory organization. A separate license is not required.

Drafting Note: States may wish to insert language here providing for an annual license fee for advisory organizations and statistical agents.

Section 9. Insurers and Advisory Organizations: Prohibited Activity

A. No insurer or advisory organization shall:

(1) Attempt to monopolize, or combine or conspire with any other person to monopolize an insurance market.

(2) Engage in a boycott, on a concerted basis, of an insurance market.

B. (1) No insurer shall agree with any other insurer or with an advisory organization to mandate adherence to or to mandate use of any rate, prospective loss cost, rating plan, rating schedule, rating rule, policy or bond form, rate classification, rate territory, underwriting rule, survey, inspection or similar material, except as needed to facilitate the reporting of statistics to advisory organizations, statistical agents or the commissioner.

The fact that two or more insurers, whether or not members or subscribers of an advisory organization, use consistently or intermittently the same rates, prospective loss cost, rating plans, rating schedules, rating rules, policy or bond forms, rate classifications, rate territories, underwriting rules, surveys or inspections or similar materials is not sufficient in itself to support a finding that an agreement exists.

(2) Two or more insurers having a common ownership or operating in this State under common management or control may act in concert between or among themselves with respect to any matters pertaining to those activities authorized in this Act as if they constituted a single insurer.

C. No insurer or advisory organization shall make any arrangement with any other insurer, advisory organization, or other person which has the purpose or effect of unreasonably restraining trade or lessening competition in the business of insurance.

Section 10. Advisory Organizations and Statistical Agents: Prohibited Activity

In addition to the other prohibitions contained in this Act, except as specifically permitted under Section 11, no advisory organization or statistical agent shall compile or distribute recommendations relating to rates that include expenses (other than loss adjustment expenses) or profit.

Section 11. Advisory Organizations: Permitted Activity

Any advisory organization in addition to other activities not prohibited, is authorized, on behalf of its members and subscribers, to:
A. Develop statistical plans including territorial and class definitions;
B. Collect statistical data from members, subscribers or any other source;
C. Prepare and distribute prospective loss costs which may include provisions for special assessments;
D. Prepare and distribute factors, calculations or formulas pertaining to classification, territory, increased limits and other variables;
E. Prepare and distribute manuals of rating rules and rating schedules that do not include final rates, expense provisions, profit provisions or minimum premiums;
F. Distribute information that is required or directed to be filed with the commissioner;
G. Conduct research and on-site inspections in order to prepare classifications of public fire defenses;
H. Consult with public officials regarding public fire protection as it would affect members, subscribers and others;
I. Conduct research in order to discover, identify and classify information relating to causes or prevention of losses;
J. Conduct research relating to the impact of statutory changes upon prospective loss costs and special assessments;
K. Prepare policy forms and endorsements and consult with members, subscribers and others relative to their use and application;
L. Conduct research and on-site inspections for the purpose of providing risk information relating to individual structures;
M. Conduct on-site inspections to determine rating classifications for individual insureds;
N. For workers’ compensation insurance, establish a committee which may include insurance company representatives to review the determination of the rating classification for individual insureds and suggest modifications to the classification system;
O. Collect, compile and distribute past and current prices of individual insurers and publish such information;
P. Collect and compile exposure and loss experience for the purpose of individual risk experience ratings;
Q. File final rates, at the direction of the commissioner, for residual market mechanisms; and
R. Furnish any other services, as approved or directed by the commissioner, related to those enumerated in this section.

Section 12. Statistical Agents: Permitted Activity

In addition to other activities not prohibited, any statistical agent is authorized, on behalf of its members and subscribers, to:

A. Develop statistical plans including territorial and class definitions;
B. Collect statistical data from members, subscribers or any other source;
C. Distribute information that is required or directed to be filed with the commissioner;
D. Collect, compile and distribute past and current prices of individual insurers and publish that information;
E. Collect and compile exposure and loss experience for the purpose of individual risk experience ratings, and
F. Furnish other services, as approved or directed by the commissioner, related to those enumerated in this section.

Section 13. Advisory Organizations: Filing Requirements

Every advisory organization shall file with the commissioner for approval all prospective loss costs, provisions for special assessments and all supplementary rating information and every change or amendment or modification of any of the foregoing proposed for use in this state. Such filings shall be subject to the provisions of Sections 5 and 6 and other provisions of this Act relating to filings made by insurers.

Section 14. Joint Underwriting, Joint Reinsurance Pool and Residual Market Activities

A. Notwithstanding Section 9B(1), insurers participating in joint underwriting, joint reinsurance pools or residual market mechanisms may in connection with such activity act in cooperation with each other in the making of rates, rating systems, policy forms, underwriting rules, surveys, inspections and investigations, the furnishing of loss and expense statistics or other information, or carrying on research. Joint underwriting, joint reinsurance pools and residual market mechanisms shall not be deemed a advisory organizations.

B. Except to the extent modified by this section, insurers, joint underwriting, joint reinsurance pool and residual market mechanism activities are subject to the other provisions of this Act.

C. If, after hearing, the commissioner finds that any activity or practice of an insurer participating in joint underwriting or a pool is unfair, is unreasonable, will tend to lessen competition in any market or is otherwise inconsistent with the provisions or purposes of this Act, the commissioner may issue a written order and require the discontinuance of such activity or practice.

D. Every pool shall file with the commissioner a copy of its constitution; its articles of incorporation, agreement or association; its bylaws, rules and regulations governing its activities; its members; the name and address of a resident of this State upon whom notices or orders of the commissioner or process may be served; and any changes in amendments or changes in the foregoing.

E. Any residual market mechanism, plan or agreement to implement such a mechanism, and any changes or amendments thereto, shall be submitted in writing to the commissioner for consideration and approval, together with such information as may be reasonably required. The commissioner shall approve only such agreements as are found to contemplate: (i) the use of rates which meet the standards prescribed by this Act, and (ii) activities and practices that are not unfair, unreasonable or otherwise inconsistent with the provisions of this Act. At any time after such agreements are in effect, the commissioner may review the practices and activities of the adherents to such agreements and if, after a hearing, the commissioner finds that any such practice or activity is unfair or unreasonable, or is otherwise inconsistent with the provisions of this Act, the commissioner may issue a written order to the parties and either require the discontinuance of such acts or revoke approval of any such agreement.

Section 15. Examinations

The commissioner may, as often as he or she may deem it expedient, make or cause to be made an examination of each advisory organization or statistical agent referred to in Section 8 and of each group, association or other organization referred to in Section 14, provided that each statistical agent and advisory organization licensed in this state shall be examined at least once every five (5) years. The reasonable costs of any such examination shall be paid by the advisory organization, statistical agent or group, association or other organization examined. The officers, manager, agents and employees of such advisory organization, statistical agent, or group, association or other organization may be examined at any time under oath and shall exhibit all books, records, accounts, documents or agreements governing its method of operation. In lieu of any such examination, the commissioner may accept the report of an examination made by the insurance supervisory official of another state, pursuant to the laws of that state.
Drafting Note: Under the laws of several of the states, reports on examination are not made public until the organization examined has had an opportunity to review the proposed report and to have a hearing with reference thereto, after which the report is filed for public inspection and becomes admissible in evidence as a public record. In any state that has no such law, it is suggested that provisions to this effect be adopted. Examinations of statistical agents and advisory organizations require specialized expertise; commonly require the hiring of contractors, and can be expensive. States adopting mandatory examination provisions should plan for personnel to be able to undertake or oversee these examinations, and check whether the costs for examinations, even though charged to the organization being examined, must go through the insurance department’s budget.

Section 16. Workers’ Compensation

A. Every workers’ compensation insurer shall adhere to a uniform classification system and uniform experience rating system filed with the commissioner by an advisory organization designated by the commissioner.

B. Every workers’ compensation insurer shall report its experience in accordance with the statistical plans and other reporting requirements in use by an advisory organization designated by the commissioner.

C. A workers’ compensation insurer may develop subclassifications of the uniform classification system upon which rates may be made. Such subclassifications and their filing shall be subject to the provisions of this Act applicable to filings generally.

D. A workers’ compensation insurer may develop rating plans which identify loss experience as a factor to be used. Such rating plans and their filing shall be subject to the provisions of the Act applicable to filings generally.

E. The commissioner shall disapprove subclassifications, rating plans, or other variations from manual rules filed by a workers’ compensation insurer if the insurer fails to demonstrate that the data thereby produced can be reported consistent with the uniform classification system and experience rating system and in such a fashion so as to allow for the application of experience rating filed by the advisory organization.

Section 17. Statistical and Rate Administration

A. The commissioner may adopt reasonable rules for use by companies to record and report to the commissioner their rates and other information determined by the commissioner to be necessary or appropriate for the administration of this Act and the effectuation of its purposes.

B. The commissioner may promulgate reasonable rules to assure that the experience of all insurers is made available at least annually in such form and detail as is necessary to aid in effecting the purposes of this Act. The commissioner may designate one or more advisory organizations or statistical agents to assist in gathering such experience and making compilations thereof. The scope of such rules may include the data which must be reported by insurers, definitions of data elements, the timing and frequency of statistical reporting by insurers, data quality standards, data edit and audit requirements, data retention requirements, reports to be generated by advisory organizations or statistical agents to fulfill the requirements of this section, and the timing of such reports.

Drafting Note: States that want the commissioner to be required to promulgate rules for the collection of statistical experience can replace the “may” in the first line of Subsection B with “shall”.

C. The following provisions apply only to the disclosure of data and reports provided to the commissioner pursuant to this section and of reports produced by the commissioner from data and reports provided to the commissioner pursuant to this section:

(1) Data shall not be disclosed when it is likely to identify individual policyholders or claimants, or where there is reason to suspect that individual open claim reserves may be identified with individual policyholders or claimants.

Drafting Note: Paragraph (1) should be amended for states that wish to provide for the release of the names of individual policyholders without their permission for the purpose of assigned risk depopulation programs. The amendment should allow the commissioner to release such names on a basis designed to protect policyholder privacy by restricting distribution to producers and insurers interested in writing this business on a voluntary basis.
(2) The commissioner may agree in advance to withhold data from public disclosure when confidentiality is requested by the insurer, advisory organization or statistical agent providing the data to the commissioner, but only if the data include data elements that the commissioner had not required, prior to their writing or occurrence, to be recorded by insurers.

(3) Unless exempted by Paragraph (1) or (2), reports from a statistical agent or advisory organization in which the information is summed and presented on a combined basis for the insurers reporting to that statistical agent or advisory organization shall be open to disclosure.

D. Reasonable rules and plans may be promulgated by the commissioner for the interchange of data necessary for the application of rating plans.

E. In order to assist in the performance of the commissioner’s duties under this Act, the commissioner may share documents, materials and other information, including confidential and privileged documents, materials or information with other state, federal and international regulatory agencies, with the National Association of Insurance Commissioners, its affiliates or subsidiaries, and with state, federal and international law enforcement authorities, provided that the recipient agrees to maintain the confidentiality and privileged status of the document, material or other information.

Section 18. Rules and Regulations

The commissioner may make reasonable rules and regulations necessary, including definitions of the rate standards contained in Section 4, to effect the purposes of this Act.

Section 19. False or Misleading Information

No person or organization shall willfully withhold information which will affect the rates or premiums chargeable under this Act from, or knowingly give false or misleading information to the commissioner, any statistical agent, any advisory organization or any insurer. A violation of this section shall subject the one guilty of such violation to the penalties provided in Section 22 of this Act.

Section 20. Assigned Risks

Agreements may be made among insurers with respect to the equitable apportionment among them of insurance which may be afforded applicants who are in good faith entitled to, but who are unable to procure such insurance through ordinary methods, and such insurers may agree among themselves on the use of reasonable rate modifications for such insurance, such agreements and rate modifications to be subject to the approval of the commissioner.

Drafting Note: This section is taken from the Casualty and Surety Model Bill approved in 1946 by the NAIC. Since then a number of states have enacted assigned risk provisions of more limited scope. There is no intent here to recommend extension of assigned risk provisions in present state statutes.

This section does not purport to deal with the questions as to whether Assigned Risk Plans should be voluntary or statutory, nor as to what features, including judicial review, should be contained in such plans. If these questions are to be dealt with by statutory provision, such provision should preferably be in another statute.

Section 21. Exemptions

The commissioner may by his or her own initiative or upon request of any person, by rule exempt any market from any or all of the provisions of this Act, if and to the extent that the exemption is necessary to achieve the purposes of this chapter.

Section 22. Penalties

The commissioner may, upon a finding that any person or organization has violated any provision of this Act, impose a penalty of not more than $10,000 for each such violation, but if the violation is found to be willful, a penalty of not more than $25,000 may be imposed for each violation. Such penalties may be in addition to any other penalty provided by law.
For purposes of this section, any insurer using a rate for which the insurer has failed to file the rate, supplementary rate information, underwriting rules or guides, or supporting information as required by this Act, shall have committed a separate violation for each day such failure continues. The commissioner may suspend or revoke the license of any advisory organization, statistical agent or insurer which fails to comply with an order of the commissioner within the time limited by such order, or any extension thereof which the commissioner may grant.

The commissioner may determine when a suspension of license shall become effective and it shall remain in effect for the period fixed by him or her, unless the commissioner modifies or rescinds such suspension, or until the order upon which such suspension is based is modified, rescinded or reversed.

No penalty shall be imposed and no license shall be suspended or revoked except upon a written order of the commissioner stating his or her findings, made after hearing.

**Drafting Note:** States may wish to insert a section here regarding hearing procedure and judicial review which references the state’s administrative procedures act.

**Section 23. Laws Repealed**

Sections [insert applicable sections] of the statutes of this state are hereby repealed. All other laws or parts of laws inconsistent with the provisions of this Act are hereby repealed.

**Section 24. Severability**

If any section, subsection, subdivision, paragraph, sentence or clause of this Act is held invalid or unconstitutional, such decision shall not affect the remaining portions of this Act.

**Section 25. Effective Date**

This Act shall take effect [insert effective date].

**Drafting Note:** The effective date of this Act should be set to allow state insurance departments, insurance companies and advisory organizations to prepare themselves to carry out the purposes of the Act. One year is recommended.

---

*Chronological Summary of Actions (all references are to the Proceedings of the NAIC)*

2002 Proc. 1st Quarter 241-244 (language adopted later is printed here).
2002 Proc. 4th Quarter 8, 27 (amended).

This model was designed to combine two earlier NAIC models:

*Fire, Marine and Inland Marine Rate Regulatory Bill*

*Casualty and Surety Rate Regulatory Bill*

This chart is intended to provide readers with additional information to more easily access state statutes, regulations, bulletins or administrative rulings related to the NAIC model. Such guidance provides readers with a starting point from which they may review how each state has addressed the model and the topic being covered. The NAIC Legal Division has reviewed each state’s activity in this area and has determined whether the citation most appropriately fits in the Model Adoption column or Related State Activity column based on the definitions listed below. The NAIC’s interpretation may or may not be shared by the individual states or by interested readers.

This chart does not constitute a formal legal opinion by the NAIC staff on the provisions of state law and should not be relied upon as such. Nor does this state page reflect a determination as to whether a state meets any applicable accreditation standards. Every effort has been made to provide correct and accurate summaries to assist readers in locating useful information. Readers should consult state law for further details and for the most current information.
